PROFESSIONAL EXPERIENCE

Banque de France (Headquarters)

Financial Analyst & Developer (Intern)

Feb 2026 – Present

Paris, France

- **Financial Data Hub:** Architected a centralized in-memory Excel hub connected to real-time SQL databases, reducing data retrieval and analysis time by 50% across the directorate.
- **C-Level Reporting Automation:** Designed an end-to-end Python data pipeline automating IT Steering Committee (CPPI) reports, directly feeding Power BI presentations for the First Deputy Governor.
- **Budget Collection System:** Deployed a custom SharePoint portal with dual-validation workflows, adopted by all 9 directorates of the Banque de France to secure and streamline quarterly budget collection.
- **Internal Trainer:** Designed and led Python and VBA Masterclasses focused on financial automation for colleagues within the Financial Directorate.

Credit Agricole

Sales & Data Analyst (Intern)

Jan 2024 – Feb 2024

Reims, France

- Designed interactive Power BI dashboards to monitor commercial KPIs, optimizing managerial decision-making.
- Developed VBA scripts to automate weekly reporting, eliminating manual tracking.

EDUCATION

University of Reims

MSc in Statistics for Evaluation and Forecasting (SEP)

Expected Aug 2026

Reims, France

- **Academic Standing:** Highest Honors.
- **Relevant Coursework:** Financial Econometrics, Time Series, Big Data Ecosystems (NLP, Deep Learning), Machine Learning, Quantitative Financial Risk Management.
